Killin' ourselves faster than fast  
Livin' in the future, livin' in the past  
I haven't always been in Christ  
I know what you're going through, man  
A couple of years ago I was just like you  
Lookin for answers, lookin to myself  
Thinkin that Christians just love Jesus for their health  
But I didn't know about Jesus  
i tried to be like God, but when I tried I failed  
And every time I fail, and fail  
I know I rail a nail straight into the cross of Jesus  
Straight into the wrist of Jesus  
And now it's 1996, a hard year to be a Godly man  
It seems the more I speak the Word, the less they  
understand  
You gotta know about Jesus.
