There's one dream in my life

One that I love more

Then settle down, fool around

Games that only drag you down

So if you're blue and skies are gray

That's when I love more

The one dream in my life

The one dream that's in my life

The one dream in my life

That I live for

There's one story that I heard

About a man at war

With himself, he couldn't tell

Which side he was fighting for

So if your colors start to fade

That's when you reach out for

The one dream in your life

The one dream that's in your life

The one dream in your life

That matters more

I woke up to find life was just

Leading me on, that's all

Then I found out

That I could reach it all

By just holding that one dream in my life

Right before my eyes

The one dream in my life

The one dream that's in my life

The one dream in my life

That I live for, that's what your living for

One dream in my life

One dream in my life
