I thought I could hear you, echoing words of denial

Careful not to feel you near me, clawing out at what  
you call life

Hold on to what you want

Hold on to what you have

Hold on to where you are

Hold on to where youâ€¦

I face the change, I've tasted pain, digging a hole, now  
take the blame

I fell aside, I cast away, covered in shame, now take  
the blame

Thought I was beneath you, crawling in your bed of lies

You infected me with envy, tiny daggers in my eye

Hold on to what you want

Hold on to what you have

Hold on to where you are

Hold on to where youâ€¦

I face the change, I've tasted pain, digging a hole, now  
take the blame

I fell aside, I cast away, covered in shame, now take  
the blame

Thought I could believe you, selling me your big  
surprise

Only needing one more victim, tearing down your one

disguise

Hold on to what you want

Hold on to what you have

Hold on to where you are

Hold on to where youâ€™

I face the change, I've tasted pain, digging a hole, now  
take the blame

I fell aside, I cast away, covered in shame, now take  
the blame
