

Supertramp "Listen To Me Please"

Visit "[Listen To Me Please](#)" on MotoLyrics.com

Well, if you want some advice, you gotta listen to me
And getta hold of your life, then, you can have a new
dream

Forget the ups and the downs, there's a new game in
town

For every turn in the road, there's a new way to go

I don't care what you say, gonna find my own way
You just try to persuade, everyone around you

We'll make it easy for you, plan everything that you do
Won't have to work very hard, you'll make it big from
the start

Don't have to take it from me, here's a list you can see
Well, everyone of those names, I've found them
fortune and fame

Well, it all sounds so sweet, so simple and so neat
But can I, I believe anything you tell me?

I know your life's a big mistake
Let's go, this music you must face

Ah, listen to me, please, I'm down upon my knees
They'll never treat you like they did before
I'll make your dreams come true, now all I need is you
Then please believe me and all this will be yours

You'll have a penthouse in town you'll be the king with
the crown
Live on a country estate you'll have a twenty-foot gate
And gettin' tanned at the pool You'll be makin' them
drool
And takin' trips overseas Anythin' that you please

I feel so alone, where did I go so wrong?
Do you know? Can you tell? Maybe you can help me

I know it's hard for you to take
Let's go, this move you have to make

Hey, listen to me, please, I'm down upon my knees

They'll never treat you like they did before
I'll make your dreams come true, now all I need is you
Please, believe me and all this will be yours

I want to believe
Yeah, your vision will be clear, so clear
Your pain will disappear, it's gone
You'll know that I'll be watching over you
I know you're watching

I'll go and chase blues away, blues away
So change your life today, that's okay
And everything I say to you is true
I hear everything you say

Ah, listen to me, please, no, please
I'm down upon my knees, I'm seeing
They'll never treat you like they did before
That's for sure

Yes, I'm gonna make your dreams come true, so true
Now all I need is you, you do
And please, believe me and all this will be yours, and I
want it all

Your vision will be clear, my vision
Your pain will disappear, disappear
You'll know that I'll be watching over you
I know you're watching over me

I'll chase your blues away, [Incomprehensible] away
I'll change your life today, that's okay
Everything I say to you is all true
I believe everything you say

Listen to me, please
I'm down upon my knees, so down
Yeah, they'll never treat you like they did before
Oh, is that so?

And I'm makin' your dreams come true, so true
Now all I need is you, you do
And please, believe me
