I don't know any more
Just don't know any more

But think of what you're saying
I really think you should
You'd better stop complaining
It won't do you any good

You know you should have done the right thing
When you drew your master plan
But little by little
I'll try to make you understand
Little by little
I'll try to make you understand

You don't know anymore
Got so far from the shore

You're one in a million
If you could only see
You've less than perfect vision
Can't see the woods before the trees

Gonna shake you till your bell rings
You're like a ship that's lost at sea
But little by little
I'm going to bring you back to me
Little by little
I'm gonna to bring you back to me

Well, you gotta get back home
'Cos you gotta change your ways
Can't do it all alone
'Cos you've got too much at stake
So get to it right away

I'm going to set out on a rescue
Until this mission is complete
Ah yeah, you know I'm going to get you
I'll make you listen to my plea

Ah yeah, you thought the grass was greener

But then it didn't prove to be
But little by little
I'm going to bring you back to me
Little by little
I'm going to bring you back to me

Well, little by little
Well, little by little
Well, little by little
