Oh Lordy I got to feelin' so cold
You know the mornin' it ain't too good for my soul
I've been workin' an' in some faraway place
I got to thinkin' about your sweet smilin' face

I got a thing for you, if you want me to
Gonna change all my ways
I'm gonna get off the road, I'm gonna lighten my load
I got a thing for you, can you feel it too?
I think I better slow down
All my wandering's done, I found my place in the sun

Ah woman, why d'you treat me this way?
You don't believe a single word that I say
But it's the truth now, you know I'll be home for good
So what's with you now, I thought that you understood

I got a thing for you, if you want me to
Gonna change all my ways
Gonna get off the road, I'm gonna lighten my load

There ain't a woman alive could ever come close to you
I won't know how to survive, so don't you fake with my
view
You say I'm putting you on and soon you'll be on your
way
Well woman you're wrong and that is all I can say, all I
can say

I got a thing for you, an' if you want me to
Gonna change all my ways
Gonna get off the road, I'm gonna lighten my load
I got a thing for you, can you feel it too?
I think I better slow down
All my wandering's done, I found my place in the sun
I got a thing for you

If you want me to, gonna change all my ways
I'm gonna get off the road, I'm gonna lighten my load
