Later that evening, only a feeling
But it was there in the air that we share in the twilight
Humming a sad song, where was our day gone?
But in the dark was a spark a remark I remember

Try again, she replied to some story I told
Try again, yes, I will if I can
All I need is somebody to hold

Learning a feeling, seeking a meaning
Finding a way, should she stay how to say, let's
imagine
Maybe, I'll go wrong, it may not last long
But in the night, how delight must be right for this
moment

Try again, she replied to some story I told
Try again, yes, I will if I can
All I need is somebody to hold

Try again, she replied to some story I told
Try again, yes, I will if I can
All I need is somebody to hold

Try again, she replied to some story I told
Try again, yes, I will if I can
All I need is somebody to hold
