alarm clock say hello to my dying head  
I woke up on the wrong side of the bed  
and I really didn't get any sleep last night  
just thought about things that I shouldn't have said  
the days all seem to run together now  
I want to feel better but I don't know how  
I reach for the bottle and it's not there  
last night was the wrong night to learn to share

and I know that things can't really be that bad  
and I know that I won't start feeling better  
until I stop feeling so damn bad...it's gonna be alright

I just want to say "what the fuck are you doing?"  
you don't even care about the people that you're  
screwin'  
or the lives that you ruin  
rationalize with just one word: legalize  
well I'm sick and fucking tired of people lying to me  
is something wrong with me? do I got a disease?  
you single me out because I smoke weed  
well I don't get in fights, and I'll never OD  
it's just like sodomy, you know neither are legal  
but we do 'em anyway  
if I smoke and you smoke weed  
then we smoke weed its unity all day  
do we cause that much of a threat?  
go ahead and wrap your plastic around my head

so I looked at the clock and its twenty past four  
and I'm still high from the night before  
I wanna find some roaches on the floor  
you know what I'm really looking for  
I want to smoke a joint that lasts forever  
I want to drink a beer that never ever ever goes warm  
gets you drunk with no hangover  
twice a week I'll try to stay sober yeah
