

Dreaming, The "Afraid"

Visit "[Afraid](#)" on MotoLyrics.com

All these nameless fears have left me paralyzed
Frozen in a past I can't escape
Trapped between what was and what can never be
Watching my world slowly drift away

I will not be afraid
Anymore
I will not be afraid
Anymore

I was so afraid of losing everything that I never had
That now that I've got nothing left to lose
There's nowhere left to run, no one left to blame
There is only me alone to face the demons in my head

I will not be afraid
Anymore
I will not be afraid
Anymore

Hold me close
I don't wanna cry on my own

I will not be afraid
Anymore
I will not be afraid
Anymore
Anymore
