I lookin' through new eyes again
Another turn through a wrap around bend
Another fiction about the end
Another heel I've got to mend

What's the deal?
What's the deal?
What's the deal?
What's the deal?
Afraid that it hurts just to feel

The headlights behind you are always too bright
The road ain't the same and the bitterness bites
Kiss of a stranger another trance of circumstance
Another girl dime and dance hidden danger

What's the deal?
What's the deal?
What's the deal?
What's the deal?
Afraid that it hurts just to feel

Lessons of the past get all confused
All the stories that I've ever used
Captor of my true desire master of my inner choir
I gotta know, would you tell me?

What's the deal?
What's the deal?
What's the deal?
What's the deal?
Afraid that it hurts just to feel
Afraid that it hurts just to hurt you

A dream is true
A dream is true romance
Oh, what's the deal?
Oh, what's the deal?
It better hurts just to feel
