I don't see the hour  
I don't feel the day  
I don't notice anything  
'Cause everything is you

You're always the sun  
You're always the sun to me  
You're always the sun  
You're always the sun to me  
You're everything, you're energy

I want it  
It's delicious

I can see forever  
I can dream for miles  
I can conquer anything  
Yes, everything is true

You're always the sun  
You're always the sun to me  
You're always the sun  
You're always the sun to me  
You're everything, you're energy

You're always the sun  
You're always the sun  
You're always the sun to me  
You're always the sun  
You're always the sun  
You're always the sun  
You're always the sun  
You're always the sun  
You're everything, you're energy  
You're always the sun  
You're everything, you're energy  
You're always the sun

Man I want it  
Delicious
