The record goes from blue to gold  
So thank you for all your help  
I know you want to jump around  
But try to contain yourself  
You always struck me as the type to take it lightly  
But now you're gonna have to shut your mouth or fight  
me

Backstabber, backstabber

You're all alone, you're all over  
The popular magazines will never care what do you  
care  
You're down with the Japanese  
But you've got no right to sit there saying I abuse it  
When you only sleep with girls who say they like your  
music

Backstabber backstabber backstabber backstabber  
Backstabber backstabber

Backstabber! hope grabber!  
Greedy little fit-haver!  
God, I feel for you, fool  
You shit lover! off-brusher!  
Jaded bitter joy crusher!  
Failure has made you so cruel

Rotten to the core  
Rotten to the core

Rotten like a crack whore  
Backing out out the back door  
Show us what you're good for  
Stick it to the noise board  
Come on join the bloodsport  
Show us some support, still  
Working in the drugstore  
Is it because you're a fucking?

Backstabber! hope grabber!

Greedy little fit-haver!  
God, I feel for you, fool  
You shit lover! off-brusher!  
Jaded bitter joy crusher!  
Failure has made you so cruel

So don't tell me what to write  
And don't tell me that I'm wrong  
And don't tell me not to reference my songs within my  
songs  
You backstabber! hope grabber! greedy fucking fit-  
haver!  
BACKSTABBER!
