"Kaledrina"

an arm is off
an eye is missing
a face is cracked
a mouth is rusting
a dress is ripped
a hand is stuck
this mechanism
seems to be broken

but pull the string
still it can talk

"my name is kaledrina,
and i love you very much"

when i woke up
my arm was off
my eye was missing
my face was cracked
my mouth was rusting
my dress was ripped
a hand was stuck
this mechanism
seems to be broken

but pull the string
still i can talk

"my name is kaledrina,
and i love you very much....."
