Through the 3rd door on the right,
meetings take place day and night.
Just lately I've been leaving earlier,
it gives me more time with my friends.

some are talking fast
some are talking faster
some are talking fast with me
wondering when my time will be

I leave and walk down on the street
I see a lot of different feet
some are walking fast
some are walking faster
some are walking fast with me

what am I doing here
what have I found
who will I tell next
I have made mistakes before
I won't be making anymore

some are walking fast
some are walking faster
some are losing step with me
what am I doing here
what have I found
who will I tell next
I have made mistakes before
I won't be making anymore
