### "Crashing"

My self affliction  
Leads to  
My self-destructive  
Massochistic belief  
With blood on my hands  
And fresh wounds  
Carved into my arms

Your disease  
Enamors me  
You are just so  
(I'M GOING TO CUT YOU DOWN TO SIZE)  
Engrave  
My pain  
You'll feel this  
Coming from me  
Like a hammer  
With a set course  
I'm going to crush you

Release me  
Broken  
Touch me  
Taken  
I hold it all inside my hand  
Crush it like the taunting pain it is  
It's come around again  
This time, it's taking me  
I feel myself slipping everyday  
Everyday closer is one step too far away  
And I ask myself  
Will I know that feeling  
One more time
