"Hollow"

I can't feel this
Every single time
It's taking me
Pretty soon it's gonna consume me

Soon enough
My life will be deceased
Such pain driving me further
Torture destroying my mind
I fuck myself each day
Every time I decide for myself
Puts my foot further into the dirt
The shame
Life drags me through
Killing me slowly

Now
I can't take this
My dreams
All layed to waste
Realize i'm nothing
I'm nothing
Just let me die

Seething with all my hate
Take away my faith
Shattered all my dreams
And crushed all my hopes
One last time
I'm becoming
Nothing

Breathing in my immorality
Tearing down my imperfections
