Lying on the ground  
Lifeless as I'm close to death  
Beaten and left to die  
I struggle to take my last breath  
Trying to save my life  
Unconscious unable to move  
Blood loss is killing me  
Slowly I'll die from my wounds  
I was left to die  
I was left to die  
Raging adrenalin flow  
Evading my victims demise  
I told you if you fuck with me  
You're going to pay the price  
Eyes gouged from his head  
Teeth are hanging by threads  
Gravel shoved in his mouth  
Body covered in red  
Intense suffering  
Within his eyes  
Bleed, motherfucker  
Until you die
