Got no direction
No resurrection
Got no religion
No space to live in
This institution
Filled with pollution
Got no evolution
I got no solution

Well baby I get high
If you help me to get by
Baby I'm insane
I crucify my brain

Too much deceiving
Nothing to believe in
I get no reaction
And no satisfaction

No satisfaction

Don't need love
Don't need drugs
I don't need jesus
Don't need anybody

Don't need any body
But myself
