The eclipse of the sun  
Throws a shadow on this planet  
Cold winds rushing over land  
Frost is reigning  
All warmth is vanished

Winter

No romantic nights  
Stare at the blue cold moon  
Feel the earth becomes colder  
Brain it's slowly freezing it slowly... dies

Nature a mass of ice

No romantic nights  
Stare at the blue cold moon  
Feel the earth becomes colder  
Brain it's slowly freezing it slowly... dies

Nature a mass of ice

Frost I'm yours  
Winter forever
