Angel its now your turn
Step down and out of me
Fight for me without a word
You have no need to speak
I've waited way too long
For you to rescue me
Step down and out of me, of me...

My angel lose your disguise,
Come dry my eyes
My angel you've got no right,
To lay down and die

Angel where have you gone
Why have you abandoned me
Left me staggering alone
With glass below my feet

My answer is foregone
My prayers they laugh at me
Where have I to go
I command your loyalty!

My angel lose your disguise,
Come dry my eyes
My angel you've got no right,
To lay down and die

When I'm done,
And when I'm gone,
It will all go on,
And on and on...
