Well it happen again like the time before  
Took a trip through my mental and find a small door  
To a passage written through time this is my mindset  
You find it deeper inside the strong-minded  
I find the energy and feel fire  
Changes the gravity inside of me  
We have no time to fret  
No time for regret  
If the poison doesn't kill us we come live and direct

This is my life  
This is my hell  
Straight took a journey  
to the poison well  
This is my life  
This is my hell  
Straight took a journey  
to the poison well

My brain strains  
I feel no pain  
All kinds a chemicals race through my brain  
This and that well let me counter act  
I'm lost in the vortex and ain't comin back  
I become you and you become me  
Lost in dream of fact or fantasy  
Hallucinations from red to green find the  
Calculations for why we fiend

This is my life  
This is my hell  
Straight took a journey  
to the poison well  
This is my life  
This is my hell  
Straight took a journey  
to the poison well  
This is my life  
This is my hell  
Straight took a journey  
to the poison well

I found my hell, inside the poison well  
I found my hell, inside the poison well
