Sleepless nights, dreadful dreams  
Noises come surrounding me  
All the motion in the shadows  
As the phantom walks within  
Looks frightening  
Following my every step, he becomes  
Closer to the image of my sins  
As the battle inside me begins

He's trying to get in  
The mirror's showing the reflective anger  
Breathless, I fake I'm strong  
Wishing it is just one more dream

Reminisce in my head  
Bring me back to the past  
Silent scream in every step  
As his presence floats through the air  
Like a cold breeze  
Looking for a sign  
I'm trying to find a release  
In the middle of this fate undefined  
Undefined

He's trying to get in  
The mirror's showing the reflective anger  
Breathless, I fake I'm strong  
Wishing it is just one more dream

Get away  
I'm tired of just living in this hurricane  
The thoughts inside my head are driving me insane  
I just don't know no more how I can run away  
Gotta have one more chance

To remake my every move  
To let nothing left to prove  
To really stop this decay  
And start my life from today  
To remake my every move  
To let nothing left to prove

To really stop this decay  
And start my life from today

He's trying to get in  
The mirror's showing the reflective anger  
Breathless, I fake I'm strong  
Wishing it is just one more dream  
He's trying to get in  
The mirror's showing the reflective anger  
Breathless, I fake I'm strong  
Wishing it is just one more dream
