I don't wanna look back
And see you all the time (see you all the time)
'Cause you make me remember
The past that I need to deny

To be happy
To be free
To be me

I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you in my way
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say

I don't want you to hide
Just because you're near (just because you're near)
Don't follow me anymore
For you, I'm just not here

You're not my master
You can't control my life

I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you in my way
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you in my way

Get out, get lost
I don't want you to be my ghost
I never wanted you here
Now I beg you to disappear
(I'm sick of seeing you my way)
You've got nothing to say
So please go away

I must tell you that I'm sick of seeing you in my way

Yeah I'm begging it, yeah I'm demanding it, you know I
deserve it, yes I'm begging it
Yah I'm demanding it, you know I deserve it, yes I'm
begging it, yeah I'm demanding it
You know I deserve it, yes I'm begging it, yeah I'm
demanding it, you know I deserve it,
Yeah I'm begging it, yeah I'm demanding it, you know I
deserve it, yes I'm begging it

I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you in my way
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you in my way

Get out, get lost
I don't want you to be my ghost
I never wanted you here
Now I beg you to disappear
(I'm sick of seeing you my way)
You've got nothing to say
So please go away
I must tell you that I'm sick of seeing you in my way

I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
I'm sick of seeing you in my shadow
Sick of seeing you in my destiny
Just let me live and say
I'm sick of seeing you my way
