(Bill Anderson)

Into my arms walked an angel
Up to my lips came her tongue
Out of the line stepped a stranger
One look and my angel was gone.

Alpha and omega
The beginning and the end
The first time I ever found true love
And I'll never find true love again.

--- Instrumental ---

Over the town I've been walking
But no one has seen me go past
They say that I'm chasing a mem'ry
My first love affair and my last.

Alpga and omega
The beginning and the end
The first time I ever found true love
And I'll never find true love again...
