(Les Reed - Geoff Stephens)

We only have a little time
You're feeling sad I can tell
I know my love, what's on your mind
My heart is breaking as well.

But darling, don't say a word just kiss me
Kiss me, kiss me, for soon we must part
And when I'm gone please miss me
Miss me, miss me with all of your heart.

Don't say a word just give me
Give me, give me a love you can give
And let your heart be with me
With me, with me as long as you live.

Soon those big doors will close
Who knows if darling we'll meet again.

So don't say a word just kiss me
Kiss me, kiss me for soon we must part
And when I'm gone please miss me
Miss me, miss me with all of your heart.

And when I'm gone please miss me
Miss me, miss me with all of your heart...
