(Dave Coleman)

Love, love that little word, called love.

Don't use the word lightly  
That little word called love  
You swear that you love me  
By heaven above.

But you love another  
And soon we must part  
Don't use the word lightly  
You're breaking my heart.

True love is eternal  
True love is divine  
Don't use the word lightly  
You're really not mine.

--- Instrumental ---

Don't use the word lightly  
That little word called love  
You swear that you love me  
By heaven above.

But you love another  
And soon we must part  
Don't use the word lightly  
You're breaking my heart.

True love is eternal  
True love is divine  
Don't use the word lightly  
You're really not mine...
