(Ben Peters)

If the whole world stopped lovin'  
The way you stopped lovin' me.

Have you ever stopped to wonder  
What kind of place this would be  
If the whole world stopped lovin'  
The way you stopped lovin' me.

If every heart was broken  
The way that you broke my own  
And the whole world stopped lovin'  
How long would livin' go on.

Hear the church bells in the steeple  
As they ring their song through the air  
If the whole world stopped lovin'  
There'd be no steeple bells there.

The tears would fill the river  
Till the river's flooded the sea  
If the whole world stopped lovin'  
The way you stopped lovin' me.

If the whole world stopped lovin'  
The way you stopped lovin' me...
