(Bill Eldridge - Gary Stewart)

Only a woman like you can make a man of me
For a man like me can't go through life alone
Only a woman like you can make a man of me
Without your love I'm weak but with your love I'm
strong.

Down every road I'll have to walk
And every path I'll have to cross
I'll need someone who'll be standing there with me
Someone who can take my smallest dream
And turn it into the greatest thing
Darling, only you can make a man of me.

Only a woman like you can make a man of me
For a man like me can't go through life alone
Only a woman like you can make a man of me
Without your love I'm weak but with your love I'm
strong.

Without your love I'm weak
But with your love I'm strong...
