(Cecil Null - Edens)

When I met you my loneliness fled  
Like the good wine you rushed to my head  
I just can't let you get away  
Please take me home with you today.

And paint me the color of your wall  
Stand me in the corner of your hall  
I've got to be near you that's all  
So paint me the color of your wall.

I hope that you won't disagree  
And in time your get used to me  
You're the one love at first sight I'd found  
I love you so keep me around.

And paint me the color of your wall  
Stand me in the corner of your hall  
I've got to be near you that's all  
So paint me the color of your wall...
