Send me the pillow that you dream on (You dream on)  
Don't you know that I still care for you (Do, do, do)  
Send me the pillow that you dream on (You dream on)  
So darling, I can dream on it too. (Do, do, do)

Each night while I'm sleeping, oh, so lonely  
I share your love in dreams that once were true  
Send me the pillow that you dream on (You dream on)  
So darling, I can dream on it too.

I've waited so long for you to write me  
But just a mem'ry's all that's left of you  
Send me the pillow that you dream on (You dream on)  
So darling, I can dream on it too...
