(Linda Hargrove - Pete Drake)

I come here tonight to discover
A lover that I'd never known
Someone to talk to and smile at
And laugh with till I take her home.

I come here to find me a stranger
Somebody that I never met
Someone to love me then leave me alone
But someone that I can forget.

--- Instrumental ---

You might say it's not unexcepted
Neglected after being your man
You've left too many mem'ries to lay with
So I'm forgetting the best way I can.

I come here to find me a stranger
Somebody that I never met
Someone to love me then leave me alone
But someone that I can forget.

I need someone that I can forget...
