(Jim Coleman - Johnny Wilson)

She opens my door
And crosses the floor and touches my cheek
She's startin' the storm,
Her fingers are warm, the feelings are deep.

She's my sometime sunshine
When she turns her good love on me
She's my sometimes
In her time of need.

She's needin' me more
Than ever before, by the mood she is in
She's turned out the light,
It's that time of night to be more than friends.

She's my sometime sunshine
When she turns her good love on me
She's my sometimes
In her time of need.

I light up a smoke
She begins to stroke her hair with my comb
She'll need me again
I wish I knew when, I hate it alone.

She's my sometime sunshine
When she turns her good love on me
She's my sometimes
In her time of need...
