A small cafe and empty room  
A lonely heart too much of gloom  
I sat there alone with my memory  
And thought of things that used to be.

My heart was filled with despair  
When suddenly I saw you standing there  
I wondered if you're still your old used to be  
Then you took the table next to me.

You took the table next to mine  
Don't you know I know that's a good sign  
That you're still in love with your old used to be  
'Cause you took the table next to me.

--- Instrumental ---

You took the table next to mine  
Don't you know I know that's a good sign  
That you're still in love with your old used to be  
'Cause you took the table next to me...
