

Surferosa "Chinese Moon"

Visit "[Chinese Moon](#)" on MotoLyrics.com

I know a place I used to love,
the places where we used to grow up
I know a world i used to love
The land is near the foreign east

It was China (Bang bang)
It was China (ching chong, ching chong)
It was China (Young boy)
It was China, China, China

I know a place I used to love,
the places where I want to get free
I know a place with smiling face
Where they used to shanghai me

It was China (Bang bang)
It was China (ching chong, ching chong)
It was China (Young boy)
It was China, China, China

I know a place with ancient culture
I'm gonna be there soon
I know a place I used to love
The place is near the Chinese moon

It was China (Bang bang)
It was China (...Town)
It was China (Young boy)
It was China, China, China

Well it was China
Little China
Well it was China (Young Boy)
Little China

(Boy...)

(Girl...)

(Town...)
