Why can't you see  
I want you here with me  
When I reach out and touch  
It wasn't meant to be  
Oh can you move on me close  
You're rising the emotions  
Going deeper and close  
All I want was you here with me close  
You here with me close  
[x2]

You here with me close

Why can't you see  
I want you here with me  
When I reach out and touch  
It wasn't meant to be  
Oh can you move on me close  
You're rising the emotions  
Going deeper and close  
All I want was you here with me close

You here with me close
