When Sunday night
Comes to an end
I know you will leave me again
When I wake up
I will find you gone
And so this love will go on

I always knew
That it would be this way
Loving you

I see the darkness disperse
I see how shadows appear
I watch your movements in dawning light
Your naked feet touch the floor

You hesitate in the door
And I say:
I love you, I love you

I wish I could save the world tonight
I wish I could say it would be all right
Just stand by your love and you will see
It will set you free

I always knew
That it would be this way
Loving you

I hear it's raining outside
And you will be gone for a while
But I can feel with all my senses
That we belong somehow

I always knew
That it would be this way
Loving you

I wish I could save the world tonight
I wish I could say it would be all right
Just stand by your love and you will see

It will set you free
x2

I always knew
That it would be this way
Loving you
I love you
