There's something I can't hide  
Never felt this way before  
It's in the way you smile  
The way you cry  
Cause I've never felt so sure

You opened up my door  
To a world I left behind  
Then you left me with the sound of your voice  
Telling me that I am the one

And that's the moment I miss you  
That's the moment I miss your touch the most  
I wanna let go  
I just have to make sure  
We'll make it through

That's the moment I need you  
That's the moment I need you by my side  
I just wanna make sure  
That I'll make it through

Someday I will be strong  
But someday seems so far away  
And I have to carry on  
On my own  
But where do I belong

There's a feeling deep inside  
That makes me wanna stay alive  
You left me with the sound of your voice  
Telling me that I am the one

And that's the moment I miss you  
That's the moment I miss your touch the most  
I wanna let go  
I just have to make sure  
We'll make it through

That's the moment I need you  
That's the moment I need you by my side

I just wanna make sure  
That I'll make it through

I don't know what's on your mind  
Don't know what you've been waiting for  
I can't leave it all behind  
You're the one that I adore

And that's the moment I miss you  
That's the moment I miss your touch the most  
I wanna let go  
I just have to make sure  
We'll make it through

That's the moment I need you  
That's the moment I need you by my side  
I just wanna make sure  
That I'll make it through

The moment I miss you
