The seamy side of life  
Is the need to be loved  
We're following the call  
From the day we are born  
Do you ever feel alone  
And cry at night

Will you love me forever  
If I find you again  
Will we once be together  
If I try to believe

Don't glorify the sky  
When it's dark and grey  
As you satisfy your heart  
With your trust in the fate  
Do you ever feel alone  
And cry at night

Will you love me forever  
If I find you again  
Will we once be together  
If I try to believe  
x2

The fire within me  
Is tearing my soul apart  
I want you  
I need you  
I'm bleeding inside my heart

Will you love me forever  
If I find you again  
Will we once be together  
If I try to believe  
x2
