Once again I just can't get it straight  
Wondering if wandering is my fate  
Don't lose hope in me quite yet  
'Cause help must be on the way  
Any day

From my head to my heart  
Can't seem to find a way, they're so far apart  
It's not you, it's not your fault  
You've got everything I could ever want  
And you've always understood my intentions are good  
And we've been so close from the start  
But the furthest distance I've ever known  
Is from my head to my heart

I feel the distance standing here next to you  
I don't want to keep you waiting, but I've been waiting  
too  
Some day if I get there  
And you still want me too  
We can see it through

From my head to my heart  
Can't seem to find a way, they're so far apart  
It's not you, it's not your fault  
You've got everything I could ever want  
And you've always understood my intentions are good  
And we've been so close from the start  
But the furthest distance I've ever known  
Is from my head to my heart

From my head to my heart  
Can't seem to find a way, they're so far apart  
It's not you, you've got everything I could ever want

From my head to my heart  
Can't seem to find a way, they're so far apart  
It's not you, it's not your fault  
You've got everything I could ever want  
And you've always understood my intentions are good  
And we've been so close from the start

But the furthest distance I've ever known  
Is from my head to my heart
