\*\* I've been holdin' out  
I've been hiding from the light  
Sneakin' down the back streets  
Sneakin' down the backstreets  
But no longer, can hide my eyes  
From the city nights\*\*  
\* and soon as love finds me I will go  
No I won't, say no  
As soon as love finds me (when it finds me)  
I will go\*

Now I've had my share  
Of one night affairs  
When I was a little younger  
(just a little younger)  
Well it wasn't love  
But we really didn't care  
It was close enough

(\* repeat)

All my life I pretended ya know  
I'd go through the motions  
It's never been love  
It's always been wrong, it's gotta be  
Right on the time this time  
I need, deep devotion  
It's gonna be real emotion  
Or I refuse to go

(\*\*repeat)

(\* repeat)

I will go
