### "Chevy Nights"

Visit "[Chevy Nights](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When trouble's on my mind I like to reminisce  
It was a simpler time, on just a night like this  
We were so new to love we'd educate a guess  
I taught you all I knew and you filled in the rest

\*and I said ooh  
Those were heavy nights  
We were revin up, those chevy nights with you  
(it's true)  
And I said ooh, near the levy site  
It was me and you and chevy  
Those heavy nights with you\*

September nights were cool but though the streets  
were hot  
Perhaps the memories add mystery to the plot

But deep within my soul, I'm glad the times have  
changed  
As long as rock and roll and the chevys stay the same
