Two dreamers, what would it feel like to meet by light
of day
So lonely, wouldn't it feel right to love this night away
Your name keeps echoing down this wishing well
Wild hearts on an endless flight, set free in our dreams
tonight

*two souls drawn to the fire in desperate dreams
Two hearts lost to desire's desperate schemes
One girl lost in a reverie
Lost love found in a memory
Those nights live on forever
Two fools lost in a desperate dream*

Torn pages, more than a memory, pieces of the past
One vision, your image keeps haunting me, a love too
good to last
Your voice keeps echoing down this wishing well
Wild hearts on an endless flight, set free our dreams
tonight

(* repeat)

One love divided burns brightly through the night
Two dreams united until the morning light

(* repeat)
