Sometimes, I'm bigger than all this combined
And sometimes I wipe my eyes
Because I really have something in them

And what's so wrong about wanting to be consistent
Would you just listen to me please
Don't make me say it again

And once you've found a look that works
It's best to stick to what looks good
And I won't ever gain respect
Without consistency as well

But I don't want to be anyone
Anyone that I've known well
Because the last thing
That I need is a paper trail

One day you'll thank me for my poker face
And I'll get so many invitations and I'll take you along
What's so wrong about wanting to put out the vibe
'Cause every time that I try you, you make me say it
again

And once you've found a look that works
It's best to stick to what looks good
And I won't ever gain respect
Without consistency as well

But I don't want to be anyone
Anyone that I've known well
Because the last thing
That I need is a paper trail
