He bought me a drink  
Then offered a light  
He said "Friend where's the ring  
You had on last night?"  
And he said "Man to man I understand  
That wedding bands get heavy sometimes  
But don't cross that line!"

[Chorus:]  
Cause when the smoke clears  
The heat of the moment has disappeared  
And you're alone!  
You spend one night and live in that shadow for years  
Regret's all that's here when the smoke clears!

He said "I've been there!  
Sittin' right where you are  
And that's why I'm here  
Every day at this bar!  
Her name was Emily, she worshiped me  
Our son was three, now he's twenty-five  
He don't know I'm alive!

[Chorus:]  
When the smoke clears  
The heat of the moment has disappeared  
And you're alone!  
You spend one night and live in that shadow for years  
Regret's all that's here when the smoke clears!  
You spend one night and live in that shadow for years  
Regret's all that's here when the smoke clears!
