[intro]

This is the soundtrack to the next year,
We fly to the things that make us,
who we are and what we,
go so far and now its true.
And this is a test that we go through
asking questions though it's true
that i miss you, i hate to lose you.

[chorus]

And i will find you, be beside you,
Im lost without you
And i will find you, be beside you,
Im lost without you,
And i will fi--ind you.

This is the start of something new,
planning the change and what to do,
And i need you to stay with me toni--inght.
And this is a test that we go through
asking questions though it's true
that i miss you, i hate to lose you.

[chorus]

And i will find you, be beside you,
Im lost without you
And i will find you, be beside you,
Im lost without you,
And i will fi--ind you.

[acoustic part]

And i will find you, be beside you,
Im lost without you
And i will find you,
And i will fi--ind you.
