You dress so formal like you don't even know

Whatcha got underneath it

Your straight-laced morals are just for show

Cause I know that you need it

I got you in my sights (I got you in my sights)

You know I'm gonna give you my best shot tonight

Cause I can see 20/20

You just can't disguise

Ooh, the fire in your eyes, 20/20

There's nowhere to hide

From my sweet love tonight, yeah, oh

You're so educated that you think you're above

My street wise emotion

You're so old fashioned when it comes to love

You talk of devotion

I don't wanna change your life (I won't change your life)

What I really want is your love for the night

Cause I can see 20/20
You just can't disguise
Ooh, the fire in your eyes, 20/20
There's nowhere to hide
From my sweet love tonight, ooh
Ooh, you know I can see you
I'm seein' right through you
Oh you know that I want you
I want you tonight
I can see 20/20
You just can't disguise
Ooh, the fire in your eyes, 20/20
There's nowhere to hide
From my sweet love tonight, 20/20
You just can't disguise
Ooh, the fire in your eyes, 20/20
There's nowhere to hide
From my sweet love tonight, 20/20
You just can't disguise
Ooh, the fire in your eyes, 20/20
There's nowhere to hide
From my sweet love tonight
