"Send A Message"

Visit "[Send A Message](#)" on MotoLyrics.com

Just when things get a little too tough
Maybe you don't know what to do
This great big world, comes a little undone
And you need a hand to hold on to.
Every hour, every day, every minute
Take a look and you will find
That i will be your rescue, baby like you've been mine
Just send a message if there's trouble here.
I could be oceans away
Just send a message to me loud and clear
Baby I'll be there for you
Hold me close, don't you ever let go.
We've got a love that was meant to be
The day we met, I'll never forget
Faith smiling best at me
Everyone, every once in awhile
Feels lost and alone sometime
But you don't have to worry, baby I'll be by your side
Just send a messgae if there's trouble here
I could be oceans away
I'll go the distance baby don't you fear
I would send a sea of lonesome to an island of dispare
I would search the streets of heartach cause no other
love compares
If you're stranded and alone out on the edges of the
earth
I'd go anywhere for love now darling I know what it's
worth
Yeah!
I 'll be there for , I'll be there for
Just send a message darling Oh, Just send a message
darling
Whoa oo
I'll go the distance baby don't you fear
I'll be there for, I'll be I'll be there for
Just send a message darling
