Visit "[Talkin' 'Bout Love](#)" on [MotoLyrics.com](#)

It's been so long babe since I played this telephone  
game  
I guess eventually some things will never change  
And it can't matter to me baby all those words you say  
They only remind me of yesterday

Well I see right through your crystal eyes and I already  
know your brave disguise  
But baby you want more then I can give  
(Oh) Baby don't you know

Everyone you know (Yeah everyone you know)  
Everywhere you go (Oh they're telling me)  
You're always Talkin' 'Bout Love  
Yeah you're always talking about love  
Every night and day every word you say  
You're always Talkin' 'Bout Love

And suddenly babe you try to fool me with a kiss  
Babe that don't work like it worked before

Well I don't know what you see in me that's causing you  
all the misery  
Baby I can't love you like I did before  
(Oh) Baby don't you know

Everyone you know (Yeah everyone you know)  
Everywhere you go (Oh they're telling me)  
You're always Talkin' 'Bout Love  
Yeah you're always talking about love  
Every night and day every word you say  
You're always Talkin' 'Bout Love
