Just opened your letter
read it at least a thousand times
I looked through a teardrop
and read between the lines

A suitcase of dreams
with one left behind
I wonder out loud
if love can survive
through time and tide

(Chorus)

And you send a message in the dark
and I feel the rhythm of your heart
When all my illusions fall apart
there's only the rhythm of your heart

You're in the spotlight
miss you from each and every stage
I open my heart
and turn another page

Another day gone
and still I'm alone
Seems like I'm always just
a song away from home

(Chorus)

(Repeat first verse)

(Chorus)
