It's been a long time that we've been together  
But something this wonderful can't last forever  
Too much of a good thing can be overwhelming  
That's my way of telling you this thing will never work

Oh dear I could hear your heart brake  
I know it hurts but it's the only way  
Sit down and tell me your sorrows  
I know sorry doesn't cut it but I just wanted to shut you  
up

I guess I'm tired of all of the fighting  
The constant complaining of how I'm not trying  
I think it's better we end this enever  
Forever and ever so I'll never see you again

Oh dear I could hear your heart brake  
I know it hurts but it's the only way  
Sit down and tell me your sorrows  
I know sorry doesn't cut it but I just wanted to shut

You lost it once more  
When I broke your heart like you broke my door when  
you slammed it  
Leaving screaming at the top of your lungs  
About how much you love me (oh oh)  
How much you love me (oh oh)  
How much you love me (OH)

Oh dear I could hear your heart brake  
I know it hurts but it's the only way  
Sit down and tell me your sorrows  
I know sorry doesn't cut it but I just wanted to shut you  
up 2x
